I have a to-do list for Minnesota issues to discuss with you, and our next quarterly call with MPCA is coming up on February 13. I would also like to mine Krista's brain while she is working with us.

1. Take another look at MPCA's SRF action items in light of Minntac inspection findings (if we have them- and if we do, I can include Dean if that makes sense). Note – I just talked to Dean and I understand we may have a path forward for Minntac ; please advise if you want to use the 2/13 call to discuss this, or to approach differently. We could certainly use the 2/13 call to ID Minntac issues and then set up a call shortly thereafter.
2. MPCA data issues – there are ongoing data issues you should be aware of and I will share what I know.
3. Mining Petition update (Krista can you enlighten us?) –
4. next steps
